

Did you know that the National Museum of Science & Technology(NMST) in Ottawa has one of the largest collections of antique bicycles and bicycle-related artifacts in Canada ??? These bikes are part of the vast collection housed in the new Ingenium building, next door to the NMST.

Join us for a tour of the Ingenium collection of bicycles and cycling gear as it has evolved over the past 150 years. Hear about the history of bicycles, the role of bicycles in society, technology developments over time, the Canadian cycling story, cycling fashion, and other impacts of cycling over the years.

Jacqueline Riddle, Assistant Curator ,Transportation & Access will take us on a tour of the collection & building.

Note: tour limited to 25 persons.

**WHEN:** Friday , November 14, 10:30am – 12noon

**WHERE:** main lobby, National Museum of Science & Technology, 1867 St Laurent Blvd, Ottawa

<https://maps.app.goo.gl/VDiegMwhR6aJDWHcA>
